## OBJECTIVE

---

I regard myself as a person who is fascinated by challenges in all sorts of way, work or life, that is merely based on my belief that evolving and adapting to challenges is the whole concept of being competitive and that is what i want to bring to the workplace. With the less experience that i have only means i have more room for improvement especially in programming languages, I have taught myself a few and am willing to learn and be productive as a software developer.

## EXPERIENCE

---

*SEP 2022 - Present*

- **Software Developer**

Kayise IT

I am working as a fullstack developer, My duties is creating web, mobile and desktop application and creating databases. lauguages we are using are C#, html and css, php, flutter etc
